PRASANJEET KUMAR MANDAL

Roorkee, Uttarakhand, India | jvm.prasanjeet@gmail.com | linkedin.com/in/prasanjeetmandal09 | github.com/prasanjeet-mandal

OBJECTIVE

Motivated Java Developer and DevOps enthusiast seeking a Software Development Engineer (SDE) internship to leverage hands-on experience building scalable, full-stack web applications using Core Java, JSP, NLP, OCR, AWS, and Maven.

EDUCATION

Quantum University - Bachelor of Technology, Computer Science and Engineering July 2025 - July 2028

- Advanced coursework: Data Structures and Algorithms, Operating Systems, DBMS, and Cloud Computing.
- Actively participating in technical clubs and coding competitions to strengthen problem-solving skills.

Jharkhand University of Technology (JUT) - Diploma, Computer Science and Engineering July 2021 - July 2024

- Completed core modules in Java Programming, Web Technologies, Relational Databases, and Networking.
- Developed multiple academic projects applying full-stack development techniques.

EXPERIENCE

Cognifyz Technologies - Software Development Intern (Remote) September 2025

- Contributed to real-world Java application development tasks within a professional software team using SDLC practices.
- Applied Core Java to build and unit-test functional components; participated in peer code reviews and Git workflows.

PROJECTS

Fake Certificate Detection System | Java, JavaScript, HTML, CSS, NLP, OCR, PostgreSQL

- Architected certificate verification platform using Tesseract OCR and NLP pipeline to detect forgery patterns.

Tours and Travel Management System | Java, JSP, HTML, CSS, JavaScript

- Developed full-stack travel platform for package listings, bookings, and admin controls with JDBC and JSP.

AgroSphere & AgroLink | React, Spring Boot, Java, Python, FastAPI, MySQL

- Presented AgroSphere at Buildathon 2026; demonstrated AgroLink marketplace at UCOST 21st Conference exhibition.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), JavaScript (ES6+), Python, SQL, HTML5, CSS3
Frameworks & DB: JSP, JDBC, Maven, Spring Boot, React, Node.js, PostgreSQL, MySQL
Cloud, Tools & Concepts: AWS (EC2, S3), Docker, Git, Linux, Tesseract OCR, NLP, OOP, DSA, REST API Design
